

# C30

Compact three-flap  
carton closing machine

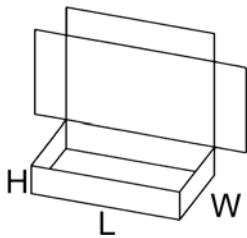

- ◆ Very flexible
- ◆ Smooth product handling
- ◆ Extra big carton range
- ◆ Quick size change-over
- ◆ Compact foot print

The Sprinter C30 is a compact and mechanically driven carton sealer that addresses those who want an affordable, modern and reliable machine with an operating speed of 30 cartons per minute.

### Carton size (mm)

	L	W	H
Max	400	295	100
Min	70	50	20

## C30

The C30 carton closer comes as a free-standing machine. It is easy to adapt the machine to different conveyors.

The C30 is a lugless carton sealer with hot-melt jetting system, working in an angle. It handles the cartons very smoothly without need for turning. With the option pack, which includes flexible overhead belt system, the C30 can handle overfilled cartons.

The C30 carton closer is built for 24-hours operation. Care has been taken regarding reliability, easy access for operators, maintenance and service.

The machine is made with stainless steel or electro galvanized frame and meets the high demands in the food industry.

Like all Sprinter machines, the C30 is CE marked to comply with the stringent EU safety regulations.

### FEATURES

- Compact carton closer.
- Size change in minutes.
- Extra big carton range.
- Lugless carton transport.
- Electric cabinet integrated in the machine.
- Easy access for maintenance.
- Quiet and smooth operation.
- PLC Control.

Easy access for maintenance.
